## REGULATIONS FOR CREMATED REMAINS

We at Concordia Cemetery understand the importance of the final disposition of a loved ones cremated remains. In order to insure a dignified and reverent burial will be cared for into the future. We have established the following regulations.

No cremated remains may be buried, scattered or otherwise disposed of, in any way in or around Concordia Cemetery without written consent of cemetery management. Any and all procedures are at managements discretion. Permanent cemetery records are of utmost importance for all burials.

Concordia Cemetery will allow two cremated remains burials per grave space or one full vault burial and one cremated remains.

Proper authorizations and affidavits must be filed in our cemetery records before any cremated remains are accepted.

We require the original Cremation Certificate to accompany said cremated remains.

Payment for burial is due upon acceptance.

Scattering of cremated remains is strictly prohibited in Concordia Cemetery.

Only cemetery approved containers may house said cremated remains. No breakable china or ceramic urns, tin, card board or plastic bags. Special cremation units are available for purchase. Only non-biodegradable containers may be buried as is.

Cremated remains can be memorialized in accordance with our marker regulations. If a marker already exists on a grave and no room is available for another inscription, a flush marker only may be placed in the center of such grave, memorializing your loved one.
